WOKE RAMEN

SINGAPORE'S FIRST

WOK HEI RAMEN

WOKE Ramen is a love story between Japan's iconic ramen and Singapore's favourite *wok hei*.

For the uninitiated, *wok hei* literally translates to "breath of the wok". Our noodles are first wok-fried in high temperatures to achieve that unmistakable smoke-kissed aroma before they're simmered in our signature chicken collagen and prawn-based broths.

The result is an unbeatable combination of smoke, depth and umami — a wonderful alchemy of culture, deliciousness and wok(e).

Think you're woke enough to try it?

How to eat Woke Ramen the wok way

1. Take a sip of the original soup. Swirl it in your mouth. And savour the *wok hei*'s smoke-kissed savouriness.
2. Slurp the ramen. The louder the better. Feel the chewy texture of the lightly charred noodles.
3. Add a dash of Woke Mama sauce. Savour. Taste the difference? Add more to intensify.
